Professional Summary

Technical founder building at the intersection of AI and commerce. Currently Co-Founder & CTO of AirShelf AI (Antler-backed, Singapore), building permissionless agentic commerce infrastructure for the B2B long tail — making brands discoverable and transactable across AI assistants without platform gatekeepers. Previously Co-Founder & CTO of 12Go, APAC's leading ground transportation OTA — scaled to **50,000 bookings daily**, **45-person team**, and **\$500K daily GMV** over a decade.

Notable Achievements

- **Founded AirShelf AI** — permissionless agentic commerce infrastructure for the B2B long tail. Antler-backed, selected for **HP Garage 2.0** APAC distribution. **13 merchants onboarded** in 7 months, including enterprise pilot with on-prem zero-data-leak inference.
- **Scaled 12Go** from startup to APAC's leading ground transportation OTA, managing **45+ remote team members** across 12 departments and delivering **\$500K GMV daily** with **99.95% uptime**.
- **Navigated the COVID-19 crisis** by executing operational pivots and leading due diligence for a successful M&A integration across **4 international markets**.
- **Co-founded GV**, one of Southeast Asia's pioneering holiday rental platforms, partnering with Airbnb during their Thailand expansion.

Professional Experience

Co-Founder & CTO

Oct 2025–Present

AirShelf AI | Permissionless Agentic Commerce (Singapore)

- Built and shipped the full stack: edge infrastructure serving canonical AI surfaces, agent commerce protocol integration (ACP/UCP/MCP), and AI-discoverability primitives — making any brand transactable across AI assistants without platform gatekeepers.
- Engineered **on-prem zero-data-leak inference** for enterprise customers, with fail-closed architecture so customer data never touches frontier APIs — key differentiator for B2B compliance.
- Designed and shipped: merchant dashboard, semantic shopping API (**175+ stores / 22 markets**), AEO benchmarking across major AI assistants, hallucination detection, golden-record extraction pipeline.
- **13 merchants onboarded** in 7 months. Antler pre-seed; HP Garage 2.0 APAC distribution.

Founder in Residence (SG19)

Sep–Nov 2025

Antler | Early-Stage VC (Singapore)

- Selected for Antler Singapore Cohort 19. Formed AirShelf with co-founder Ashish Piplani during the programme. Graduated with pre-seed investment.

12Go.com | Ground Transportation OTA (Online Travel)

- Co-founded and scaled a platform handling **50,000 tickets sold daily**, **100+ searches per second**, with **search latency under 150 ms**, **99.95% uptime**, and **global coverage**.
- Unified a multicultural team spanning **Eastern Europe, Southeast Asia, Middle East**, managing **45 remote team members** across **12 departments**.
- Transitioned the company from a startup environment to corporate governance, integrating quarterly milestone planning and QBR reporting.

Leadership and Team Building

- Cultivated an **end-to-end ownership culture**, empowering teams to solve problems autonomously.
- Nurtured a **collaborative environment**, fostering respectful and productive discussions.
- Established KPIs for engineering teams, driving a **performance-driven culture**.
- Implemented **agile workflows**, delivering fortnightly and on-demand releases via CI/CD pipelines.
- Introduced **data-driven decision-making** using Jira Product Discovery (ICE prioritization) and A/B testing frameworks.

System Architecture and Development

- **Backend**: Led teams to build a scalable **search API** with latency under 150 ms, sharded caches, and a flexible pricing engine. Oversaw integration of **150+ supplier systems**.
- **Frontend**: Guided development of a modern web app using **Node.js, Vue.js, Nuxt** and a mobile app contributing **30% of bookings** within its first year.
- **Infrastructure/DevOps**: Managed AWS infrastructure (**EC2, ELB, RDS, S3, CloudFront**) with tools like **Grafana, Datadog, Bugsnag**, and **Clickhouse**.

Strategic Contributions

- Partnered closely with the product team to deliver features on time and with high-quality code.
- Planned annual budgets for infrastructure, third-party tools, and hiring, aligning resources with business growth objectives.
- Navigated the COVID-19 crisis, leading due diligence for a successful M&A with an Israeli group, integrating operations across **Israel, Croatia, Argentina, and Brazil**.

GV | Holiday Rentals Platform (Online Travel/PropTech)

- Co-founded one of Southeast Asia's first holiday rental platforms, partnering with Airbnb during their Thailand expansion.
- Engineered scalable backend systems using **PHP, MySQL**, and **Go**, supporting **thousands of property listings**.
- Expanded the business beyond Russian-speaking clients, achieving significant growth in Southeast Asia.

Skills & Expertise

- **AI & LLM Integration**: Production systems across all major LLM providers (Anthropic, OpenAI, Google, Perplexity). On-prem GPU inference with open-source models. Semantic search, structured extraction, hallucination detection, agent commerce protocols (ACP, UCP, MCP).
- **Full-Stack**: TypeScript, Next.js, React, Node.js, PostgreSQL, Prisma, Redis, Vercel. Previously PHP/Symfony, Vue.js, MySQL, Go.

- **System Architecture:** Designing low-latency, high-availability systems. Edge proxies, API design, caching, real-time pipelines.
- **Cloud & Infrastructure:** AWS (EC2, RDS, S3, CloudFront), Vercel, Neon (serverless Postgres), Docker, K3s. Monitoring: Grafana, Datadog, Axiom.
- **Leadership:** Built and managed 45-person remote team across 12 departments. Hiring, mentoring, retention. Agile, CI/CD, data-driven prioritization.
- **Founder Skills:** Fundraising (Antler pre-seed), enterprise sales, pilot delivery, investor relations, M&A due diligence.

Education

Specialist degree in Applied Mathematics

Moscow Aviation Institute (National Research University)

2005–2010

Additional Information

Languages: Fluent in English and Russian (native), Thai (conversational)

Location: Singapore (previously Bangkok, 10+ years)
