Summary

Technical founder. Co-founder and CTO of AirShelf, an Antler-backed Singapore startup building AI sales agents for B2B sellers. Before that, ten years as co-founder and CTO of 12Go, APAC's leading ground transportation booking platform. It grew to 50,000 bookings a day and was acquired by Bookaway (now Travelier).

Experience

Co-Founder & CTO **Sep 2025–Present**

AirShelf (Singapore)

- Built the product myself: an AI agent that answers B2B buyers, and their AI assistants, from the seller's own product documents.
- Signed the first enterprise customer, Toshiba Australia. Paid pilot in April 2026, annual contract in July 2026.
- Raised pre-seed through Antler. Selected for HP Garage and NVIDIA Inception.

Co-Founder & CTO **2014–2025**

12Go.com *Joined as senior developer, co-founder from 2015*

- Grew the platform to 50,000 bookings and $500K GMV a day.
- Built and led a 45-person remote team across 12 departments.
- Designed the core system: search, pricing, 150+ supplier integrations, web and mobile apps.
- Led due diligence for the sale to Bookaway, then merged systems across four countries.

Co-Founder & CTO **2011–2012**

GV

- One of Southeast Asia's first holiday rental platforms. Partnered with Airbnb in Thailand.

Skills

- **AI**: production LLM systems (Anthropic, OpenAI, Google), private GPU inference.
- **Engineering**: TypeScript, Next.js, PostgreSQL, AWS, Vercel.
- **Leadership**: hiring and running remote teams, enterprise sales, fundraising, M&A due diligence.

Education & Languages

Applied Mathematics, Moscow Aviation Institute 2005–2010

Russian (native), English (fluent), Thai (conversational)
